

Homeland Security \$5.2 billion

- \$4.7 billion for the Department of Transportation. The requested funds include \$2.4 billion to implement and operate the Transportation Security Administration (TSA) for the remainder of FY 2002. The request also includes \$1.9 billion for TSA, to be made available contingent upon the submission by the President of a later budget request to the Congress designating the entire amount requested as an emergency requirement. Other activities include: \$255.0 million for homeland security activities for the United States Coast Guard; \$19.3 million for implementation and homeland security activities of the new Border Enforcement Program within the Federal Motor Carrier Safety Administration; and \$3.5 million to upgrade the current Crisis Management Center into a new Transportation Information Operations Center.
- \$327.0 million to enable the Federal Emergency Management Agency to provide equipment and training grants to States and localities to improve terrorism and chemical-biological response capabilities.
- \$87.0 million for the U.S. Postal Service to continue its efforts to protect employees and postal customers from exposure to biohazardous material and to sanitize and screen the mail for such material, making use of the most cost effective technology possible.
- \$55.0 million for the General Services Administration. Of the funds requested, \$51.8 million would be used to increase security services at Federal buildings nationwide and for additional security equipment and \$2.5 million would be used to help protect against potential disruptions in information technology infrastructure.
- \$51.0 million for the Department of Justice. The requested funds include: \$35.0 million to enable the Immigration and Naturalization Service to fully implement increased air and sea port security initiatives; \$10.0 million for the Federal Bureau of Investigation to support a multi-agency terrorist tracking task force; and \$5.8 million for deployment of the Automated Biometrics Identification System/Integrated Automated Fingerprint Identification System to 30 additional ports of entry.
- Other amounts include: \$26.0 million for the Department of Energy to improve emergency response assets and for critical energy security and assurance activities; \$19.3 million to the National Science Foundation to provide additional funds for the Cybercorps/Scholarships for Service program; \$14.0 million to the Judicial Branch for perimeter security enhancements of the Supreme Court building and grounds and for physical security measures at Federal courthouses and at the United States Court of Appeals for the Federal Circuit; \$13.0 million for the

Department of Commerce to begin the Homeland Security Information Technology and Evaluation Program and for standards development for chemical/biological/nuclear/radioactive explosive threat detection equipment; \$12.5 million for the Environmental Protection Agency for additional expenses incurred for anthrax investigations and cleanup actions at the United States Capitol and Congressional office building complex; \$7.5 million for the Legislative Branch for the Copyright Office of the Library of Congress; and \$5.0 million for the Office of Administration within the Executive Office of the President.
